What could be done to improve the course?

Comments
Nothing really, the course was awesome.
More diversity in assignments

What aspects of the course were most valuable?

Comments
I feel like more so than my other graduate classes Dr. Taylor was closely examining my work and giving me the grades I earned and valuable feedback. He worked hard to give feedback in a timely manner. I feel more equipped to examine historical sources in a meaningful way.
The Instructor's feedback was immensely helpful to me in my improvement throughout the course and my learning,
The absolutely amazing feedback from the instructor. I felt like I was improving on my writing and learning new tools with each assignment
